

RAJASTHAN MARBLES

# Website Image Size Specifications

Designer handoff document — banners, heroes, cards & gallery sizes  
for every page on the site.

Content shell: **1280px** | Crop: **cover / center** | Color: **sRGB** | Prefer **2× retina** exports

**Important:** The project currently has no image files on disk. Most visuals are CSS textures. Only these filenames are referenced in code: *rm-living.jpg*, *rm-kitchen.jpg*, *rm-bathroom.jpg*.

# 1. Global export rules

Use these rules on every asset unless a page section says otherwise.

| Rule               | Specification                                                |
|--------------------|--------------------------------------------------------------|
| Format             | JPG / WebP for photos · PNG for logos / UI marks             |
| Color space        | sRGB                                                         |
| Retina             | Export at 2× display size whenever practical                 |
| Crop mode          | object-fit: cover · object-position: center                  |
| Safe zone          | Keep subject in center–lower third; leave ~10% edge margin   |
| Full-bleed banners | Export wider/taller than viewport — they will crop           |
| Text overlays      | Avoid critical detail on left text columns & bottom captions |

## Priority deliverables

- 1. Three full-page application banners at **2560×1440 px** (rm-living / kitchen / bathroom)
- 2. Five coverflow slides at **640×600 px** per product page
- 3. Home gallery mosaic + journal / Instagram cards
- 4. Remaining section images (about, blog, contact, use-cards)

## 2. Home — index.html

### Hero, cards & sections

Homepage image slots. Hero is currently a CSS gradient — ready for a photo background.

| Slot                 | Qty | Display (CSS)           | Export W×H                      | Ratio / Notes    |
|----------------------|-----|-------------------------|---------------------------------|------------------|
| Hero / Banner        | 1   | Full viewport 100svh    | 1920×1080 min / 2560×1440 ideal | ~16:9 full-bleed |
| Doorway cards        | 4   | ~300×340 each           | 600×680                         | ~3:4             |
| Category cards       | 4   | ~300×344                | 600×688                         | ~3:4             |
| About figure         | 1   | Aspect 4:5 (~560×700)   | 1120×1400                       | 4:5 portrait     |
| Room highlight tiles | 4   | Min height 300px        | Wide 1480×600 / Tall 1060×600   | Flexible cover   |
| Journal covers       | 3   | Aspect 16:10 (~400×250) | 800×500                         | 16:10            |
| Instagram cards      | 6+  | 216–290 × 9:16          | 580×1032                        | 9:16 vertical    |

### Project gallery mosaic (at 1280 shell)

Grid: 6 columns · gap 16px · auto-rows 200px.

| Frame               | Display approx | Export (2×) |
|---------------------|----------------|-------------|
| Large g1 (4×2)      | 848×416        | 1696×832    |
| Small g2 / g3 (2×1) | 416×200        | 832×400     |
| Mid g4 / g5 (3×1)   | 632×200        | 1264×400    |

## 3. About — about.html

### Image slots

Story visual uses a 4:5 portrait frame; team cards are fixed-height photo strips.

| Slot             | Qty | Display (CSS)                 | Export W×H | Ratio / Notes      |
|------------------|-----|-------------------------------|------------|--------------------|
| Page hero banner | 1   | Full-width padded hero        | 1920×900   | ~21:10 optional BG |
| Story visual     | 1   | Aspect 4:5                    | 1120×1400  | 4:5                |
| Team card photos | 3+  | Card width × 240px (~300×240) | 600×480    | 5:4                |

## 4. Blog / Journal — blog.html

## Image slots

Hero visual + featured article media + grid card covers.

| Slot                   | Qty | Display (CSS) | Export W×H | Ratio / Notes |
|------------------------|-----|---------------|------------|---------------|
| Hero visual panel      | 1   | Min ~560×280  | 1200×600   | 2:1           |
| Featured article media | 1   | Min ~640×420  | 1280×840   | ~3:2          |
| Blog card covers       | 6–9 | Aspect 16:10  | 800×500    | 16:10         |

## 5. Contact — contact.html

### Image slots

Map area is the main photographic / map graphic slot.

| Slot      | Qty | Display (CSS)                   | Export W×H | Ratio / Notes     |
|-----------|-----|---------------------------------|------------|-------------------|
| Page hero | 1   | Text + gradient hero            | 1920×900   | Optional BG       |
| Map area  | 1   | Full width × 480px (300 mobile) | 2560×960   | Desktop map/photo |

## 6. Product pages (shared layout)

Applies to: [rajasthan-marbles-tiles.html](#), [Sanitaryware.html](#), [Kitchen-Accessories.html](#), [PVC-Pipes.html](#), [Paints-Coatings.html](#).

### Per-page image slots

Coverflow is the primary hero visual. Mobile slide width is 74vw — same export works with cover crop.

| Slot                    | Qty | Display (CSS)                         | Export W×H | Ratio / Notes     |
|-------------------------|-----|---------------------------------------|------------|-------------------|
| Hero banner area        | 1   | Full viewport 100svh                  | 1920×1080  | ~16:9 optional BG |
| Coverflow slides        | 5   | Max 320×300 (clamp 208–320 × 228–300) | 640×600    | ~1:1 / 16:15      |
| Use / application cards | 4   | ~303×320 min                          | 640×640    | 1:1               |
| Journal feature media   | 1   | ~650×380                              | 1300×760   | ~17:10            |

*Tip: Export one set of 5 coverflow images per product category (tiles, sanitaryware, kitchen, PVC, paints).*

## 7. Application pages — full-bleed banners

Applies to: [rajasthan-marbles-residential.html](#), [Hospitality.html](#), [Commercial-&-Govt-Institutions.html](#).

### Hero banners (critical)

CSS: height 100svh · min-height 600px · object-fit cover · slight Ken Burns scale (1.08 → 1).

| File name       | Role                        | Export W×H                      | Ratio |
|-----------------|-----------------------------|---------------------------------|-------|
| rm-living.jpg   | Banner 01 — primary scene   | 1920×1080 min / 2560×1440 ideal | 16:9  |
| rm-kitchen.jpg  | Banner 02 — secondary scene | 1920×1080 min / 2560×1440 ideal | 16:9  |
| rm-bathroom.jpg | Banner 03 — tertiary scene  | 1920×1080 min / 2560×1440 ideal | 16:9  |

*Qty: 3 banners × 3 pages = 9 unique photos if pages should differ; or reuse the same 3 filenames across pages.*

### Other image slots (same 3 pages)

Zone and journal visuals currently use CSS scene textures — ready for photography.

| Slot              | Qty | Display (CSS)                 | Export W×H | Ratio / Notes |
|-------------------|-----|-------------------------------|------------|---------------|
| Zone visuals      | 3   | Min ~540×300 half-column      | 1200×800   | 3:2           |
| Journal card tops | 3   | Card width × 170px (~400×170) | 800×340    | ~21:9         |

## 8. Quick banner checklist — all pages

| Page                                          | Banner type          | Recommended size                |
|-----------------------------------------------|----------------------|---------------------------------|
| Home                                          | Full-screen hero     | 2560×1440 px                    |
| About                                         | Page hero BG         | 1920×900 px                     |
| Blog                                          | Page hero panel      | 1200×600 px                     |
| Contact                                       | Page hero BG         | 1920×900 px                     |
| Tiles / Sanitaryware / Kitchen / PVC / Paints | Hero + 5 coverflow   | Hero 1920×1080 · slides 640×600 |
| Residential / Hospitality / Commercial        | 3× full-page banners | 2560×1440 px each               |

## 9. Suggested file naming

home-hero.jpg → 2560×1440  
home-gallery-01.jpg ... 05.jpg → mosaic sizes  
home-journal-01.jpg ... 03.jpg → 800×500  
home-ig-01.jpg ... → 580×1032

about-story.jpg → 1120×1400  
about-team-01.jpg ... → 600×480

blog-hero.jpg → 1200×600  
blog-featured.jpg → 1280×840  
blog-card-01.jpg ... → 800×500

contact-map.jpg → 2560×960

[product]-slide-01.jpg ... 05.jpg → 640×600  
[product]-use-01.jpg ... 04.jpg → 640×640  
[product]-journal.jpg → 1300×760

rm-living.jpg → 2560×1440  
rm-kitchen.jpg → 2560×1440  
rm-bathroom.jpg → 2560×1440

*Generated for designer handoff from the live CSS layout of the Rajasthan Marbles website. Display sizes may vary slightly by viewport; exports are sized for retina and cover-crop safety.*
